## Manuscript Maps Relating to North America and the West Indies

### Part 2: The Colonial Era

## WEST INDIES

**West Indies, c. 1751**: ['A new and Correct Map of Caribee Islands, from the Latest Observations.' The area covered is from the end of Porto Rico to South American mainland opposite Margarita. Title in rococo cartouche. Engraved. A. Bontein delient: The islands are coloured according to the nations claiming possession of them. A key is given on an architecture tablet. 35 miles to an inch. Compass rose. Published according to Act of Parliament December 17<sup>th</sup>, 1751. 1 ft. 7 in. x 1 ft. 0.7 in. Two copies, (2) being discoloured. C.O. 700 West Indies no. 15 (1) and (2)]

**West Indies c. 1751**: [The islands as in CO 700 West Indies no. 15(1), (2) below. MS. About 35 miles to an inch. A sailing course marked, Jan. to March, from Martinique to Margarita Island off Columbia and back to Martinique. Compass indicator. 1 ft. 6.9 in. x 1 ft. 2.6 in. (C.O.700 West Indies no. 15(3))

## ANTIGUA

**[Early 18<sup>th</sup> c]**: 'The Island on Antego by Herman Moll, Geographer. Sold by T. Bowles next ye Chapter House in St. Pauls church yard and J. Bowles at the Black Horse in Cornhill'. Engraved, coastline, edged in coloured.  $1\frac{1}{3}$  miles to an inch. Table of Explanation of symbols used distinguishing importance of plantations, compass rose. 1 ft. 3 in. x 1 ft. 0.3 in. This map should be earlier date than 1734, the date of 3045, which is a MS. Map apparently based on it. Besides the features referred to in the description of that map it shows a system of roads, the position of plantations and the names of owners. The number 58 appears at the top right-hand corner, which suggests that the map may have been part of an atlas (C.O. 700 Antigua no. 2)

**Antigua 1734**: 'The islands of Antigua' drawn to illustrate 'A State of His Magistys Leeward Carribee Islands in America, 31 Aug. 1734.' Place names, forts, buildings and churches, soundings, anchorages,

shoals, rocks. MS.  $1\frac{1}{3}$  miles to an inch. Compass star. 2 ft. 0 in. x 1 ft. 6.7 in. From the many features in common in the outline of the two maps it is likely that it was copied from Moll's 'The Island of Antego' (C.O.152/20)

**Antigua 1752:** Fifteen maps and plans, with sections, of forts and barracks taken from the Report of Kane W. Horneck, engineer, 1752. Drawn by Horneck and D.E. Baker. The places are: Berkeley Fort and Eleven Gun Battery, English Harbour; Byam Fort, Perham Harbour; Fort Harman; Fort William and Fort Isaac, Willoughby Bay; Fort Christian at Mamora Bay; Indian Creek Battery; Fort Charles, Falmouth Harbour; Old Road Fort; Johnson's Fort; James Fort, St. John's Harbour; Rat Island in St. John's Harbour; Fort Hamilton; Corbison's Point. MS., coloured. 40 feet to an inch. Reference tables. Various sizes. (W.O.55/1550/8/1-15)

**English Harbour 1731:** Plan of a careening wharf to be built at English Harbour. Details of foundations for piles. Pencilled background of buildings and mountains. Accompanies an estimate of the cost of the work enclosed in a letter from Mr. H. Warner to the Navy Board of 1 July 1731. MS, about 11 feet to an inch. 1 ft. 2.6 in. x 10.7 in. (ADM. 106/834)

**English Harbour [1752]; 1807:** Plan and View of English Harbour taken from the Southeast Point. Surveyed by K. Horneck 1752. Copy by Alfred Rae, R.M.S.D., Jan. 1807. With a section across the harbour mouth from Berkeley Fort to Southeast Point Battery. MS., coloured. 200 ft. to an inch. (plan); 160 ft. to an inch (section). Compass indicator. 2 ft. 5 in. x 2 ft. 7.5 in. Plan of the view, which shows ships at anchor and the artist at work, and the title in the left top corner, have perished. (W.O.78/1978)

**Falmouth 1713:** Falmouth Harbour. Monk's Hill fortification. Houses, magazines, walls, cisterns, a pond, acreage flag and flag staff. By John Teatte surveyor, 1713. MS., coloured. Parchment. Scale, at about 55 ft. to an inch, on a ruler surmounted by dividers. Reference table to defences etc. Compass star with prominent northern point. 2 ft. 2 in. x 1 ft. 4.4 in. (C.O.700 Antigua no.1)

**Falmouth and English Harbour [1752]; 1807:** Plan of English Harbour with its environs including Falmouth Harbour and Monk's Hill. Surveyed by Kane W. Horneck, 1752. Copied by J. Anderson, March 1807. MS., coloured. 400 ft. to an inch. Compass star. 2 ft. 9.2 in. x 2 ft. 9.4 in. (W.O.78/796)

## CENTRAL AMERICA

**Central and South America [? c1685]:** A coastal pilot from Acapulco in Mexico to Valdivia in Chile, including charts of harbours, details of the coastline, place names in Spanish, towns shown by buildings, notes on navigation in Spanish and English. Signed on the last page by 'Captn **Charls** Swan'. MS., coloured. 95 folios, numbered 4-43 and 46-100, each measuring 8.7 in. x 11.7 in. The make up of this volume bears on its date and provenance. It comprises (i) a sealed envelope described on the outside as fragments; (ii) a note in an apparently 18<sup>th</sup>-century hand describing the extent of the pilot and defining limits of the charter of the South Sea Company. As the pilot and defining the limits of the charter of the South Sea Company. As the company flourished between 1711 and 1720 the note may have been written at that time; (iii) a note on a flyleaf, 'Monies lent by Charles **Swann**', above the names of Will. Smith, Capt. Harris, Mr. Masters, Thomas Emit, Mr. Mathues and Capt. Teal, with the amounts lent; (iv) another flyleaf, partly torn away, on which an account, perhaps of an interrogation in which the ship 'Signit' is named, is written, signed '**Charls Swan** Capn'; (v) the pilot of 95 folios numbered 4-43 and 46-100. The hand in the pilot is the same as that on the flyleaves. There is no certainty from swan's signature, that the hand is his; but the book may be his work, or the work of one of his crew, or it may have come into his possession with some other source. After folio 15 two folios, never numbered in the P.R.O., are missing. Eight more are missing after the last numbered folio. The numbers of folios missing can be ascertained by an examination of fragments remaining in the binding. It could be implied from the missing eight that the pilot extended south of Valdivia; and from (ii) above, where its extents is given as from Acapulco to Valdivia, that the missing folios were torn out before 1711, if in fact the pilot did extend south of Valdivia.

Charles Swan would appear to be the man who, having in earlier times served with Morgan, in 1684 set out in the ship *Cygnets*, armed and manned as a privateer, to trade on the West Coast of South America. Swan, in Brig. -Gen. E. A. Cruikshank's *The Life of Sir Henry Morgan* (Toronto, 1935) is described as 'a master mariner [with] knowledge of the Spanish language and acquaintance with the country...' One of his supercargoes was William Dampier, some reference to Swan's piratical activities on his voyage can be found in his letter to Capt of Richard Arnold, taken on or about 4 August 1686 in Jamaica (C.O. 1/58 no. 20 I). Both appear in the *Calendar of State Papers Colonial, America and West Indies*. The examination refers to Capt. Peter Harris (? The Capt. Harris on the flyleaf at (iii) above) and tells of Swan's intention to return to England via the Philippines. Cruikshank states (p. 397) that Swan was killed by accident, or in a brawl, at Mindanao. Dampier sailed the ship as far as Madagascar, where she was scuttled. Swans voyage in 1684/5 on the South American Coast went from south to north. The pilot is drawn in reverse direction. It is possible that it was compiled on another voyage, either by Swan himself, or by someone from whom he obtained it.

Two folios, numbered 44 and 45, are not part of the book but an insertion, dated Jan. 1777, containing an account of plant and animal life of an area said to be inhabited by kangaroos.
